Chirag Agrawal

WEB DEVELOPER | SECURITY PENETRATION TESTER

PROFILE

My Birth Place is Nagpur. I like Everything Here. I love swimming, reading, listening to songs, playing badminton, cricket and football in my free hours. I love spending time with my family, friends and researching cyber security. I stepped into the world of coding at the age of 13, and since then, I have been in love with it and have always tried to learn more. During my journey as an engineering student, I have worked hard to understand different concepts and implement them in the real world.
